

Should I Renovate?
Or Sale As-Is?

Sell your home for more.

Renovate your house fast. Pay nothing until you sell.

Make More Money

Move-in-ready homes command top dollar, and strategic renovations will show your home in its best light! Our team uses high quality, yet affordable upgrades that are proven to attract buyers. We will provide an estimate of how much more you could make by updating your home.

One Stop Shop

We can do everything from cosmetic upgrades—such as painting, flooring and landscaping—to full remodels, including a new kitchen, new bathrooms... the works! Our team manages the entire process from design to execution because you have other things to think about.

No Out-of-Pocket Costs

You will receive a detailed, fixed bid proposal from us so you will know exactly what's included in the project and at what price. All of the work is paid for directly and then we arrange for interest-free reimbursement from the proceeds of your sale.

ZERO WORRIES

Your dedicated project director makes the process easy for you. After working with you to decide which renovations will yield the most value, we develop custom designs and manage all of the work until your house is ready to show.

EASY TO QUALIFY

To qualify, you only need to have sufficient home equity and a signed listing agreement with me.

- NO UPFRONT COSTS
- NO HEADACHES
- NO KIDDING
